Employment

Jun 2021 – Present

Tech Team Leader, Full-Stack developer

[Prowly](#)

Developed a [comprehensive module](#) that tracks mentions across the web and social media. This module empowers users with insightful dashboards and automated email notifications, enabling them to stay on top of mention sentiment and audience engagement.

Oct 2019 – Jun 2021

Full-Stack developer

[Moovem](#)

Developing impactful web applications for [Asseco](#) and [Ministry of Justice](#) improving the online experience for millions of Polish citizens in [Unpaid legal help](#) and [e-forms](#).

May 2019 – Oct 2019

Junior Full-Stack developer

[MDBootstrap](#)

Maintained [web live code editor](#) with compilers for main front-end frameworks with built-in MDBootstrap framework. I created the React compiler, worked on fixing bugs and adding smaller functionalities like code formatting.

Education

2016 – 2021

Bechelor of Engeneering Computer Science

[University of Siedlce](#)

System programming & databases specialization: mastered computer architecture, algorithms, and software engineering principles, and SQL databases.

2017 - 2018

Full-Stack developer

[Codecool](#)

Full-time school where I was creating applications in teams on real-life workplace. I have learned to present our applications and gained knowledge and skills on demos for real companies.

Languages

Intermediate Listener and Speaker, Advanced reading and Writing

Skills

4+ years

Typescript

Advanced knowledge

I possess a deep understanding of its core principles and can confidently leverage advanced features to write clean, maintainable, and efficient code.

8+ years

JavaScript

Advanced knowledge

I leverage advanced JavaScript features, design patterns, and frameworks to craft performant and scalable web applications.

6+ years

Postgres

Good knowledge

I know how to design database ensuring data integrity and flexibility in my projects. Create procedures, transactions or search text using vectors.

4+ years

Docker

Good knowledge

Deploy and manage applications efficiently using containerization. Expertise in Dockerizing apps, composing multiple images, and manage them in Kubernetes.

5+ years

Node.js

Advance knowledge

Node.js is my choice for building both backend applications and command-line tools. First commerce project was CLI.

5+ years

Angular

Advance knowledge

Comprehensive framework for complex applications empower me to build robust SPA with NgRx, lazy loading, reactive forms and advanced routing.

2+ years

Nest.js

Good knowledge

Bridge the gap between frontend and backend with expertise in microservices, event sourcing, and message queues with database management via TypeORM.
